

PROJECT CASE STUDY

Basketball Court Flooring Application

FRASER COAST SPORTS PRECINCT HERVEY BAY, QUEENSLAND

SECTOR	Commercial
SPECIFIER	Unknown
APPLICATOR	C.N.R.C Epoxy Flooring
SYSTEM	Ultra Flake® System
FLOOR AREA	1052m ²
DURATION	4 days

THE CHALLENGE

The basketball court surrounds required a flooring system capable of handling constant foot traffic from athletes, staff and spectators while maintaining a professional appearance.

The system needed to clearly define the court surrounds, while remaining hard wearing enough to withstand cleaning regimes, equipment movement and ongoing wear. Minimising downtime for the facility was essential, requiring an efficient application and cure process.

THE SOLUTION

After reviewing the site and operational requirements, APC's Ultra Flake® System was selected as the ideal flooring solution.

- The concrete substrate was mechanically prepared to remove contaminants and create a strong base for coating adhesion.

- The Ultra Flake® epoxy flooring system with Ultra Flake® Highlights was applied, producing a seamless, decorative finish.

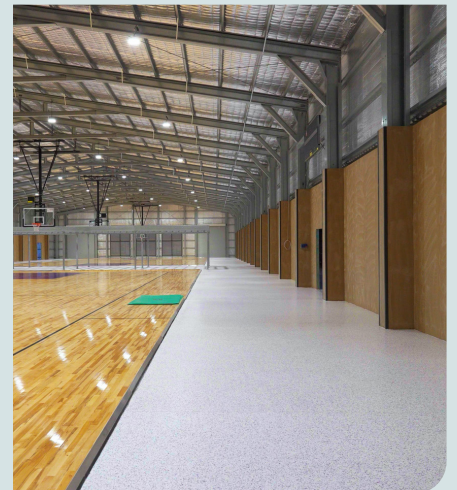

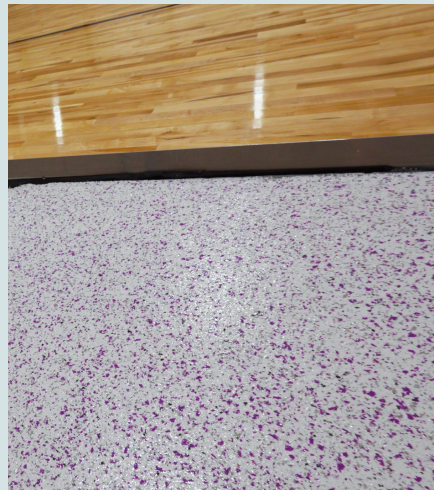

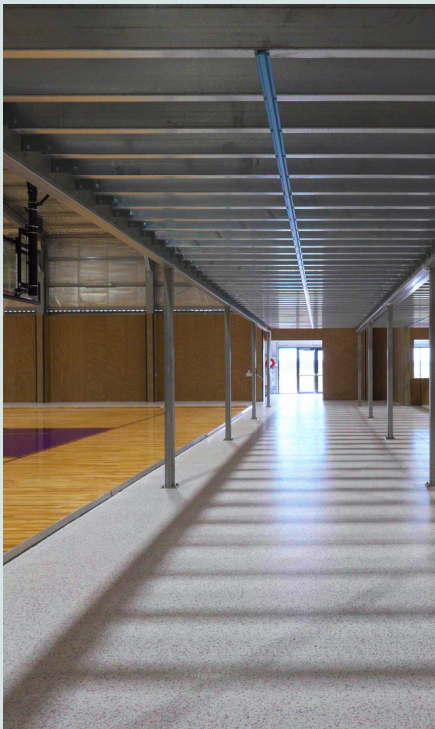

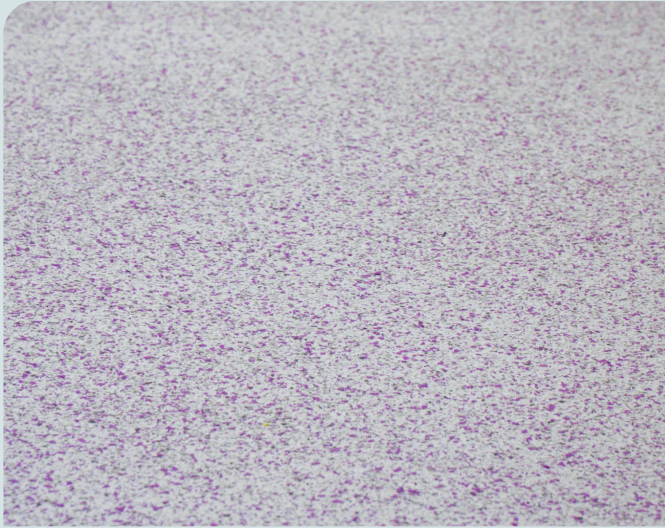

- The floor was sealed with Sparta60®, providing a hard wearing, abrasion resistant and easy to maintain finish suitable for high traffic sporting environments.

The system provided a hard wearing, low maintenance solution, applied efficiently to allow the facility to return to use with minimal disruption.

KEY BENEFITS

- ✓ Australian Made and manufactured by All Purpose Coatings
- ✓ Formulated for Australian Standards
- ✓ Abrasion resistant for high traffic areas
- ✓ Hard wearing, decorative solution
- ✓ Seamless, easy to clean surface

PROJECT GALLERY

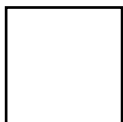

THE RESULT

A clean, modern and professional finish that complements the main playing surface and clearly defines the perimeter areas. The Ultra Flake® System delivers a hard wearing surface capable of withstanding constant foot traffic, while it's seamless finish makes routine cleaning and maintenance straightforward.

APC has every product that you need for a project, and stand the test of time. Their technical support is number one.

Chris, C.N.R.C Epoxy Flooring

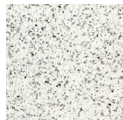

PRODUCT SNAPSHOT

EPO100T® N14 White

Prime & Base Coat

Excellent adhesion and impervious to bacteria.

Ultra Flake® Ice

Flake

Unlimited colour selection to suit modern environments.

Ultra Flake Highlights®

Lollipop Purple

Decorative Highlight

Broadcasted with Ultra Flake® Highlights for a decorative finish.

Sparta60®

Polyaspartic Top Coat

Top coat with excellent UV and chemical resistance properties.

WHY CHOOSE ALL PURPOSE COATINGS

Quality you can rely on

APC provides an end-to-end solution from specification and onsite technical guidance to national distribution and certified applicators, ensuring consistent results across all commercial projects.
